Evidencing the use of the PE and Sport Premium funding: Action plan and Impact Review

The DfE Vision for the Primary PE and Sport Premium

ALL pupils leaving primary school **physically literate** and with the **knowledge**, **skills and motivation** necessary to equip them for a **healthy**, **active lifestyle** and **lifelong participation** in physical activity and sport.

The funding has been provided to ensure impact against the following Objective and Indicators:

To achieve self-sustaining improvement in the quality of PE and sport in primary schools.

We would expect indicators of such improvement to include:

- 1. the engagement of all pupils in regular physical activity the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- 2. the profile of PE and sport being raised across the school as a tool for whole school improvement
- 3. increased confidence, knowledge and skills of all staff in teaching PE and sport
- 4. broader experience of a range of sports and activities offered to all pupils
- 5. increased participation in competitive sport

It is important to emphasise that the focus of spending must be sustainable and leave a lasting legacy beyond the funding allocation.

It is a statutory requirement of Ofsted, under their Common Inspection Framework, to ensure that information on the use of the Primary PE and Sport Premium and the impact it has had on pupils PE and sport participation and attainment is available on the school website by **31st July 2025**. Schools also have a responsibility to publish on their website the % of children who achieve the expectation for swimming by the end of Year 6.

Schools must use the funding to make **additional and sustainable** improvements to the quality of PE and sport they offer. You should not however use your funding to:

- employ coaches or specialist teachers to cover planning preparation and assessment (PPA) arrangements these should come out of your core staffing budgets
- teach the minimum requirements of the national curriculum including those specified for swimming
- · fund capital expenditure

This template is designed to support you in your planning and reporting of the PE and Sport Premium funding for over an academic year. Once completed it must be published on your website.

Academic Year:	2024 - 2025	
Total Funding Allocation:	£19,360

Does Complete PE offer an improvement on previous planning?

1 2 3 4 5

Comments

In general, there is a good range of units being offered. However,

In general, there is a good range of units being offered. However, as it is a choice, some units may not be covered again in later year groups. The PE team will look into this and may decide to prescribe the curriculum based on current coverage and any issues with what is being delivered.

Overall effectiveness of Complete PE

How good or useful is Complete PE as a sustainable resource?

1 2 3 4 5

Comments

Planning is a good guidance for what needs to be taught across the key stages. The planning can be supplemented with other resources.

PE plans can be adapted to suit the lesson and pupils being taught.

Videos help in most cases to show/demonstrate skills. Long term plans can be added to the website for clarity on what is being covered.

Student Impact Data:

Pupil Survey of Impact on Fitness During Academic Year 2024.25

Out of 368 children surveyed:

Number of children who use the outdoor fixed play equipment:

354 children out of 368 children said they use the equipment regularly. This is 96% of all children surveyed.

Outside Equipment: Trim Trail and Gym area – sustainable data in continuation from previous year.

338 children out of 368 said they feel fitter, healthier and stronger after using the outside fixed playground equipment for a sustained period of time throughout the year. This equates to 92% of children asked from Reception to Year 6

Number of children who use the trim trail effectively:

350 children out of 362 children use the trim trail effectively. This is 97% of all children asked.

Daily Mile Track: sustainable data in continuation from previous years:

354 children out 368 children said they feel fitter, healthier and stronger and their stamina increased and are now able to do more laps. This is 96% of children asked. The general consensus is that children feel fitter overall and are able run for longer periods of time in other sports.

Extra-curricular Clubs – Year 1 – Year 6:

214 out of 304 children asked, have regularly attended extra-curricular clubs either before, during and after school. This is 70% of all children surveyed.

Children who attend sports clubs outside of school:

245 children out of 368 attend sports clubs outside of school. This 67% of children surveyed.

Impact of Sports Coaches within the academic year: coaches who have taken extra-curricular clubs as well as delivered PE during lessons

346 out of 368 children said they have really enjoyed having coaches in to deliver sessions. Children positively responded to questioning and the consensus is that more children are now inclined to participate in sports related activities. This is 94% of all children surveyed.
